About Washington Hands & Voices

Washington Hands & Voices provides information, resources and support to families of children who are deaf, deafblind and hard of hearing. We are a parent-driven, non-profit organization, providing families with resources, networks, and information needed to improve communication and educational outcomes for their children.

In 2010 Washington Hands & Voices added the Guide By Your Side program. This program provides Parent Guides who are trained parents of deaf, deafblind or hard of hearing children to connect one-on-one with new families. Parent Guides connect with referred families via phone, in person, or using other technologies that will allow the new families to receive resources, information and peer support in order to best support their child.
